

Mediatime

The One-stop Solution For Any Media Room

MediaTime offers a sophisticated design to meet the demands of today's media room.

MediaTime offers all the benefits you would expect from a perfectly flat Acoustically Transparent screen - in a retractable format. Combined with an innovative new Concealed Tensioning System and an improved maximum viewable width of 160", MediaTime integrates seamlessly with your lifestyle optimised AV system, effortlessly dropping in front of In-wall speakers.

With a more prestigious look than the common-place "bat-wing shape", visual performance from the Enlightor Neo surface focuses on excellent contrast even in moderate ambient light.
